

Regarding "Localism" Low Power FM (LPFM)  
Reference: MB Docket No. 04-233

As a listener of K-LOVE, it would be a disservice to permit these LPFM stations to override reception to K-LOVE. The Christian music that is heard from K-LOVE is a blessing to me and everyone that listens to K-LOVE.

K-LOVE provides music and messages that are a service to our community and family values. Non profit agencies in the community can publicize their activities at no costs to the agencies. Then people in the community can take advantage in participating in these events. Our entire community can and does benefit from K-LOVE providing family safe music. K-LOVE also provides 24 hour counseling, by making a telephone call staff is available to listen, direct and pray with the caller, this too is at no charge to the caller.

In general to allow K-LOVE to be blocked out would be a disservice to any community that would lose access to this family friendly broadcasting. Please do not permit LPFM stations to prevent K-LOVE to be heard over the air waves.
